Egg Counter

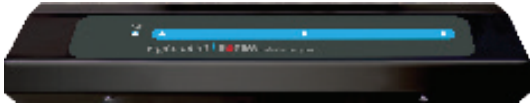

- Features
- Simple installation
 - Accurate data
 - Variety of sizes, suitable for any application

Egg Counter

Munters Egg Counter provides essential data for breeder and layer operations.

The Egg Counter accurately counts eggs as they are transported on conveyors or egg belts. The Egg Counter is supported by the Platinum Pro controller, which collects and displays the data. Platinum Pro supports up to four egg counters.

Mounting brackets enable a simple installation on the conveyor.

Egg Counter 30 cm

Up to 4 counters
with complete control,
history and alarms
