

Get better control of  
your ML dehumidifier

# ML2E control conversion to Climatix

This conversion kit is designed for ML420E, MLT800E, ML690E, ML1100E,  
ML1350E and MLT1400E units delivered from 1996 – 2023.

# ML2E control conversion to Climatix

## Extend the lifetime of your ML dehumidifier with a new Climatix controller

If you own a ML dehumidifier or a ML Plus system with a dehumidifier module\* delivered from 1996–2023, Munters suggests you take preventative action and convert your well-functioning ML dehumidifier with a new, advanced Climatix controller.

The equipped PCB control module is obsolete, and no direct replacement is available if it breaks down. To avoid unplanned downtime and extend the lifetime of your ML unit, Munters recommends that you convert your control system with our ML2E series Climatix conversion kit.

Tailor-made to perfectly fit your ML unit\*, the Climatix controller will extend its lifetime. And you'll get the latest Munters control unit on the market, which features an intuitive full-color interface and multilingual options. This ensures seamless integration and a user experience that is both familiar and user-friendly.

*\* This conversion kit is designed for ML420E, MLT800E, ML690E, ML1100E, ML1350E and MLT1400E units delivered from 1996 – 2023.*

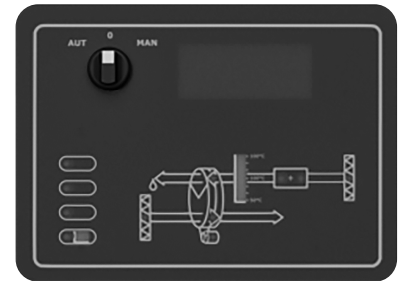

Climatix improves energy efficiency and control, enhancing the performance of your ML dehumidifier\*. It also complies with the original CE marking on the unit.

You can trust Munters certified quality and decades of expertise. The conversion process is streamlined and efficient, carried out by our experienced service technicians in just one day. But since we tailor each conversion kit to the specific needs of our customers, please plan for this conversion to ensure uninterrupted operations.

With decades of experience leading the dehumidification industry, we know what it takes to ensure the perfect climate for our customers. Trust Munters, convert today to keep your ML unit running like new!

*The new Climatix controller has an intuitive full-color interface, while keeping its original CE marking on the unit.*

*The equipped PCB control module on ML420E, MLT800E, ML690E, ML1100E, ML1350E and MLT1400E dehumidifiers delivered from 1996 – 2023 is obsolete.*

### Climatix benefits

- Automatic modulation to ensure optimized energy efficiency
- Easy-to-use software system presented on a full-colour display
- Future software updates will keep your equipment on the cutting edge
