

# Munters CB Evaporative Cooling

## Evaporative Cooling System

An innovative evaporative cooling system, completely redesigned from the ground up. Utilizing stainless steel and polymer materials to ensure a long lasting leak free cooling solution.

### System Features

- Stainless Steel – Header, pad tray, and pad retainer pieces make the system corrosion resistant and easy to assemble.
- PVC Collection Pipe – PVC cemented joints make it leak free and easy to assemble.
- Removable Pad Retainer – Wing nuts make it easy to remove for maintenance.
- CELdek® – Ensure your system will work to its full potential by using Munters CELdek media.
- Flexible design allows for center or end feed operations.
- Retro-fit – Components designed to easily fit into existing structures.

CB Evaporative Cooling System

Designed to use fewer parts and fasteners, the assembly is quick and easy to install. Similar to the CT System, the CB System is ordered in four easy steps. The system is configured in 10 foot modules or a bulk option of 480 feet, giving you the option of single house or entire site ordering. Combine your CB Evaporative Cooling System with Munters CELdek® to create the perfect climate for your animals.

### COMPLETE YOUR COOLING SYSTEM: GREENGUARD CERTIFIED CELdek®

#### What does GREENGUARD mean for MUNTERS CELdek?

Munters CELdek® evaporative cooling pads have been tested for emissions from over 360 individual chemicals of concern. Products bearing the UL GREENGUARD Gold Certification mark meet strict testing criteria for volatile organic compounds (VOCs), helping to reduce indoor air pollution, minimize chemical exposure and create healthier indoor environments.

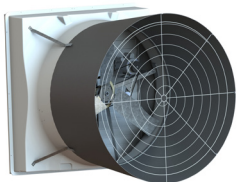

The logo features a green square with a white circle containing the letters 'UL' and a leaf. Below this, the word 'GREENGUARD' is written in white. Underneath, it says 'PRODUCT CERTIFIED FOR LOW CHEMICAL EMISSIONS' and 'UL.COM/GG UL 2818'. At the bottom, the word 'GOLD' is written in white.

-  **Improved Air Quality**  
GREENGUARD Gold Certification ensures healthier air for employees and animals
-  **Passed Most Stringent Testing in the World**  
GREENGUARD Certified products are tested for over 360 chemicals, guaranteeing non-harmful emissions
-  **Guarantee Safety**  
UL requires GREENGUARD Certified products to be tested annually to maintain certification
-  **Respected and Trusted**  
GREENGUARD Certification is endorsed and accepted by established organizations

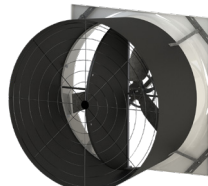

#### What does the GREENGUARD Gold Certification mean for your business?

It gives you the piece of mind that your employees and livestock are breathing the best air possible. All incoming air is drawn through the evaporative pad. With CELdek you can be assured that the incoming air quality is to the level of hospitals and schools, free of harmful chemicals. No other manufacture can make that claim.

### COMPLETE YOUR BROILER VENTILATION SYSTEM WITH MUNTERS PRODUCTS

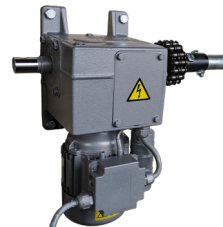

**WS55**  
Broiler fan with fiberglass housing and composite shutter for broiler growers in climates where shutters are wanted.

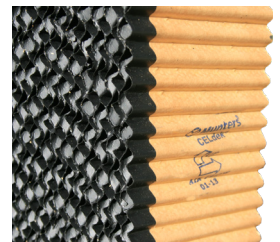

**WM54 & WM36**  
Wall mount broiler fan with insulated damper doors. Available with Munters Drive.

**MWI Insulated**  
Wall inlet available in 8" and 13" heights; 41" and 44" lengths to fit most building construction.

**LA Actuator**  
Available in 900 lb and 2000 lb version for inlets or curtains. Belt option.

**CELdek**  
Munters original cooling pad media. Save time and money by installing the new 24" wide pad.
