

Munters Data Center Technologies wins order with a value of MUSD 65

Munters has received an order with a value of MUSD 65 (appr. MSEK 655), from a leading data center colocation operator in the US. The order includes Computer Room Air Handlers (CRAH's) and will be delivered during the first half of 2025.

Munters Group (MTRS), a global leader in energy efficient air treatment and climate control solutions, has through the business area Data Center Technologies (DCT), received an order from a leading data center colocation provider in the US. The total value of the order, including CRAH's is MUSD 65 (appr. MSEK 655). The order is to be deployed at multiple data centers in the US. Deliveries are expected to take place over a period of up to nine months, starting from the beginning of 2025.

"This significant order underscores our strong position in a highly competitive market. It reflects the deep trust we've established through our lasting customer relationships", says Klas Forsström, President and CEO of Munters.

"The growing data center market needs energy-efficient, easily scalable, and adaptable systems. This customer-tailored solution caters to those needs in a profound way. I am delighted that our close and persistent collaboration with our clients continues to reap rewards." says Stefan Aspman, President Data Center Technologies, and Group Vice President of Munters.
